SADDLETHE PATENT

WROUGHT-IRON Fire-proof Flooring.

JOHN WALKER, sole Manufacturer and Licensee.

Offices, 61, Gracechurch-street.

FIRE-PROOF FLOORS.

The late lamentable accident in Gracechurch-street serves to prove that where confidence in the foundation on which floors, &c. are made, much dependence cannot be placed on it. The Patentee John Walker is earnestly solicit the attention and inspection of Architects, Engineers, &c. to Mr C. SADDLETHE'S PATENT FLOORING, of which J. W. is the sole licensee and manufacturer. The material is wrought iron, and therefore not subject to sudden fracture, as cast-iron is, and is unburnable.

Descriptive pamphlets may be had, in which may be seen and every information obtained, at JOHN WALKER'S OFFICES, 61, Gracechurch-street.

MANUFACTURER OF CORRUGATED IRON.

SEWERAGE of LONDON.—The attention of the COMMISSIONERS appointed to determine upon the most efficient material for the Construction of the Sewers of London is particularly directed to the ASPHALTE of SEYSSEL, which, more than any other material, is applicable to the construction and internal coating of brick Culverts, and other channels for drainage. The experiments made by the Royal Artillery on the Embankments of Plymouth Citadel, constructed of Seyssel Asphaltic Brickwork, under the orders of the Honourable Board of Ordnance, have fully proved the superiority, adherence, and strength of Seyssel Asphalte over all other cementitious compositions. A printed account of these experiments can be had on application to J. FARRELL, Secretary, Seyssel Asphalte Company, "Clarke's Patent," Established 1838.

Note.—The application of the Asphalte of Seyssel is specially recommended by the Commissioners on the Fine Arts, for covering the ground line of brickwork in marshy situations, and it has been ascertained that it would be peculiarly applicable for covering the Areas of closed Graveyards, and for the construction of Catacombs.

NEW SHOW-ROOMS FOR BEDSTEADS.—HEAL and SON have erected some extensive Warerooms for the purpose of keeping every description of Bedstead. In it their stock will include every sort manufactured, from the cheap stump, for servants' use, to the handsomely ornamented tubular-pillared Canopy, as well as Iron Bedsteads of every shape and pattern; and in Wooden Bedsteads their rooms are sufficiently extensive to allow them to fit up a variety, both in Polished Birch and Mahogany, of Four-post, Canopy, and French, and a host of japanned Bedsteads—in fact, to keep in stock every sort of Bedstead that is made; and they have also a general assortment of Furniture Chintzes, Damasks, and Dimities, so as to render their stock complete for the Furnishing of Bedsteads as well as Bedding. And without attempting to compete with the prices at which the lowest class of Furniture is sold, and which is fit for no useful purpose, their new stock will be found to be priced on the same principle by which their Bedding Trade has, during the last thirty years, been so successfully extended, viz. that the article, whether of a plain or handsome pattern, or of a handsomer and more expensive character, are of well-seasoned materials, sound workmanship, and warranted.

HEAL and SONS' List of Bedding, containing full particulars of Weights, Sizes, and Prices of every description of Bedding, sent free by post, on application to their factory

196 (opposite the Chapel), Tottenham-court-road, London.
